

## The project page

Sun Apr 15 16:49:41  
2018

Adresse: <http://bechele.de/pages/english/72-0.html>  
Autor: Rolf Jethon

The project consists of the following parts:

[Hardware of Bechele2](#)

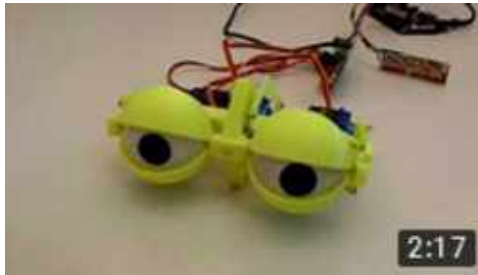

[Software of Bechele2](#)

Movement mechanics

Puppet or movement model.

If you want to have an overview of the project should start with: "[The Project how it works](#)"

Those who want to see the puppet first in action I recommend to watch the following videos:

[3D printable eye mechanics](#) 2 Min 17Sek. Music  
3D printable STL files on Thingiverse.com: <https://www.thingiverse.com/thing:2781756>

[3D printable puppet head](#) 2:19 music  
3D printable STL files on Thingiverse.com: <https://www.thingiverse.com/thing:2863069>

[Robot Face with 8 Servos](#) 2min 19 sek. Music

## The project page

Herr Becheles Geburtstag 9min 20 sek. German swabian dialect.

Herr Becheles Unfall 10min 46 sek. German swabian dialect

*In case you got inspired by the project and built something similiar , based on the projects hard or software, I would be happy, if you would pass me your video after finishing your project. After checking, I will publish it on this site if you like.*
